## GUZMAN IS PROMPTLY EXECUTED

Villa Gives Force to His Declarations of Loyalty to Carranza by Killing Emissary Sent From Felix Diaz

Gomez Was Promoter of Orozco Revolution and in the Huerta Betrayal of Madero—Met His Fate in Juarez

JUAREZ, Feb. 2.—With an army of 12,000 rebels advanced to a point north of Torreon awaiting the word of attack on the Federal garrison of that city. General Villa planned to leave here tonight for Chihuahua from whence, after several days, he will march south to direct the opening of the battle.

How long Villa will remain in Chihuahua will depend on the rapidity with which trainloads of ammunition and rations can be sent southward. The rebel leader probably will not appear until everything is ready for battle.

Francisco L. Guzman, who figured prominently in the revolt against Madero in Mexico City a year ago, was executed today in the front yard of the house occupied by Villa. Guzman had just come from Havana. He was charged with having been given a secret mission by Felix Diaz to induce Villa to renounce Carranza through the strength of a revolution for Diaz.

As soon as he heard of the proposal, Villa conferred with Guzman, making sure of the nature of the visit. He then ordered the messenger shot.

Within a few minutes of his arrival, Guzman was led out of Villa's room, stood before an adobe wall and with his hands tied and blindfolded, was shot. Guzman was former private secretary to Dr. Emilio Vasquez Gomez. He was known as one of the promoters of the Orozco revolution against Madero. Later he joined in the Huerta conspiracy against the late president.

An effort was at first made to conceal Guzman's summary execution. Inquiry as to a pool of blood in Villa's yard revealed it. Later the rebel leaders admitted Guzman had been buried a few hours after seen alive on the street. The execution of those upon whom the rebels look as political enemies, is said to be in line with the order of Carranza that all those who took part in the overthrow of Madero must be killed.

## YAGUI DEPREDACTIONS.

Indians Said to Be Killing and Pillaging: Encroachment on Moctezuma District.

DOUGLAS, Feb. 2.—After several weeks' quiet, Yaqui Indians are again raiding ranches in the vicinity of Ures, Sonora, according to reports which reached here today. Several Mexican freighters have been killed a few miles from Ures, it is stated. Inhabitants of that region are practically defenseless.

The Yaquis have extended their field of operations, declare travelers from Ures, until they have reached the southwestern edge of the Moctezuma district, which hitherto has been free from their raids. The hostile Indians have been augmented by numbers of "tame" Yaquis, deserters from the rebel army.

## WERE NOT EXECUTED.

SAN DIEGO, Feb. 2.—After being on the road six days, Robert W. Harwood of Oakland, Cal., a newspaper man, and Mortimer Miller, whose execution by Mexican federal authorities was reported, reached Ensenada this afternoon, according to word received from the United States consul at that place.

## SAN FRANCISCO WAS READY

SAN FRANCISCO, Feb. 2.—It did not take long for Secretaries McAdoo and Houston to hear all they wanted about San Francisco's claim as a financial center worthy of one of the government's regional reserve banks. Less than day was used. Tonight the cabinet members are on the way to Los Angeles. The information they desired here was prepared in advance in statistics, maps, charts, blueprints. These were documents taken along.

## KENTUCKY SOCIETY LEADER WILL WED OHIO'S HIGHEST PAID PUBLIC OFFICIAL

Miss Mary Mason Brown.

Formal announcement of the engagement of Miss Mary Mason Brown of Lexington, Ky., society leader and heiress, and Henry M. Waite, city manager of Dayton, Ohio, has just been made. The wedding will take place in the spring. Mr. Waite is Ohio's highest paid public official, his salary being \$12,500 per year.

## TRIAL OF GUARDS IN LAKE COPPER STRIKE OPENED YESTERDAY

One of Six Charged With Murder Forfeits Bond; Difficulty in Getting a Jury

HOUGHTON, Feb. 2.—Only five defendants responded when the case of six deputies charged with the murder of two striking miners was called in the circuit court today. The \$5,000 bond of Thomas Raleigh, the missing defendant, was forfeited.

Counsel announced the other men ready for trial and the case proceeded. Difficulty was encountered in obtaining unbiased jurors. The court adjourned with 11 men in the jury box. Neither side exercised preemptory challenges.

The regular panel was exhausted today. Judge R. C. Flannigan ordered a special venire of 100 called. The men on trial are James Cooper, William Groff, Arthur Davis, Harry James and Edwin Polkinghorn. The first three were employed by the Waddell Mahon corporation. The others were county deputies.

## THIS DECISION WILL PUT DAMPER UPON FOREIGN COMPANIES

Supreme Court of the United States Holds That They May Not Have Exemption

WASHINGTON, Feb. 2.—The supreme court of the United States held today that the provisions of the Arizona state law exempting the private fortunes of stockholders from liability for an Arizona corporation's debt is not effective in all states in which the corporations do business. The corporation decision related to the liability of suit resulting from the failure of the Wentworth Hotel company at Pasadena.

During the past dozen years many hundreds of corporations have been housed in Arizona because of this provision of the law, by which it was believed that individual fortunes were immune from liability for debts of the company. The decision rendered today is expected to greatly lessen the popular-

## STEWART MUST HANG SAYS U. S. CIRCUIT COURT

SAN FRANCISCO, Feb. 2.—William Stewart, convicted of the murder of Fred Kibbe, of Globe, Ariz., must hang. The U. S. circuit court of appeals affirmed today the sentence of the Arizona court to that effect.

Stewart, a former army chum, J. B. Goodwin, the state contended, shot and robbed Kibbe and Alfred Hillel at Tuttle's station, Arizona, September 15, 1910, taking the victims' horses and arms they fled.

ity of Arizona as a place for the organization of industrial corporations, as it would seem that, while stockholders would not be personally liable for corporate debts contracted in Arizona, such exceptions could not be claimed for purchases made by foreign companies organized here.

## WORK IS NECESSARY TO ESTABLISHMENT RIGHT OF MINE CLAIM

U. S. Circuit Court So Holds in Appeal From Montana Decision as to Property

SAN FRANCISCO, Feb. 2.—Locating a mine without actually trying to open it up or find out what is under the surface does not prove the discovery of a mineral lode, or in fact its existence at all.

That was the basis of a decision today in the U. S. circuit court of appeals, affirming a decree of the U. S. district court of Montana in the case of Thomas D. Thomas vs. the South Butte Mining Co.

The original suit was brought to quiet title on placer ground, Thomas claimed the discovery because of prior location. The court had against him, there being no evidence that the prior locations had not been abandoned.

## PRIESTS ESCAPE

SHANGHAI, Feb. 2.—The Jesuit priests, Fathers Allain and Tailla, who were captured by bandits when they burned the sacked town of Duan Chow recently, have been released and are in a place of safety. At the time the two priests were captured, Father Rich, a French Jesuit missionary, was killed.

## CHALLENGE FIGURES OF THE EXPERTS

Congressmen Confront Secretary Daniels of the Navy With Discrepancies Placing U. S. Force in Wrong Light

Instead of Even Break With Germany, U. S. Ranks Ahead in Naval Strength; Allege Error Is Intentional

WASHINGTON, Feb. 2.—Experts of the navy department juggled the figures of the 1913 year book to make the American navy appear inferior to the German navy and thereby set the U. S. down in third place as a naval power, was charged today by Representative Witherspoon, of Mississippi and Hensley of Missouri, members of the house naval affairs committee.

Secretary Daniels was before the committee to explain his program for the coming year. The two congressmen opposed to a "big navy" questioned him on what they declared to be faulty comparisons in the year book. The secretary replied he was not an expert and had relied upon what experts advised him of the facts.

The congressmen brought out that three U. S. battleships, the Oregon, Massachusetts and Indiana, with the same tonnage, but heavier armament than ten listed German battleships, were left out altogether and instead of giving the U. S. 36 battleships, the same as Germany, they should have credited the U. S. with 35 and a heavier total tonnage than Germany. Final action on the Barnett immigration bill was postponed tonight, when the house adjourned after voting down a motion of Representative Goldfogle, of New York, to eliminate the literacy test. It was because of this provision that President Taft vetoed a similar measure, passed in the last congress.

While President Wilson let it be known today that while he would not make public his position in the literacy test until he had consulted the committees of congress, those who asked privately found that he was opposed to the proposition because he did not think it a fair character test. Tomorrow the debate will continue on the amendment, if Hayes, of California, to exclude Mongolian, Malay and African immigrants.

## MINERS RAISE SALARIES.

INDIANAPOLIS, Feb. 2.—Increases in salaries amounting to \$10,000 a year were voted today by the United Mine Workers of America.

Amendments were adopted to the constitution to provide a fine of \$10 for any officer found guilty of giving names of the membership to other than officers entitled to them, and to make possible the establishment of sick, accident and death benefit funds by districts.

A resolution was adopted endorsing social welfare work among miners and directing the various districts to levy an assessment for the benefit of the Michigan copper strikers.

## CRISIS IS EXPECTED TOMORROW HAITIEN REVOLUTIONARY AFFAIR

U. S. Representatives Continue Recent Line of Action—No Choice Shown.

WASHINGTON, Feb. 2.—Reports to the state department indicated today that the real crisis in Haiti is expected tomorrow. The American naval commanders and minister at Port Au Prince continue, however, to act under general instructions to protect Americans and other foreign interests.

There is disposition among the officials here to refrain from giving even moral support to any individual leaders in the turbulent island until they establish their own relative strength. It was said today that Admiral Badger, now with the Atlantic fleet at Guantanamo, Cuba, might be instructed to proceed to Haitian waters if conditions became worse.

Mr. Groundhog.

Study critically the above photograph of the famous Warren District groundhog. He posed specially yesterday for The Review, it being Candlemas Day and therefore the occasion for his annual appearance. He came out to get a line on the weather for the forthcoming six weeks. Being a firm believer in tradition, he undertook to play his old role of prophet by leading himself to the "shadow test." Wherefore, the question arises: Did he see his shadow? He did. Although the question has been answered, it really was unnecessary. Study critically (as we have already suggested) the groundhog's facial expression in the specially-pose photo. Note the lines of grim determination to look pleasant. It is no criticism of the groundhog to observe that he failed utterly. It is more than can reasonably be expected of any intelligent groundhog to lead himself to a test in which Arizona weather is concerned. There is no bad weather in Arizona. There may be some water-spots and wind-breaks here and there but nothing really "bad." As for six weeks of continuous badness! Utterly absurd! Utterly!

It was only out of respect for the calendar that Bisbee's boulevards did not blossom out in straw hats during the hours for promenading yesterday. Warren and Lowell revelled in continuous sunshine also. Springtime reigned throughout the district. No wonder the groundhog was disconsolate. He will live up to tradition, however, and retire to his abode for another six weeks but he knows as does the rest of us that he is the victim of a game of bluff. The groundhog test on Candlemas Day was never designed to be tried in Arizona.

## BRITISH TEACHERS STRIKE

LONDON, Feb. 2.—The strike of school teachers, the first of its kind in the British Isles, is in full swing today in County Hereford. Eighty out of 120 elementary schools under jurisdiction of the county council, are closed. The teachers say they will remain out until they gain their demands, which is for a minimum salary of \$500 per annum, an increase of \$50.

## PRESIDENT SAYS HE WOULD LIKE TO, BUT CANNOT GRANT WISH

Participated in Discouragement Felt by Working Women Callers Yesterday

WASHINGTON, Feb. 2.—Women workers who toll in the mills, sweatshops and factories of the nation today pleaded with President Wilson for his assistance in the cause of woman suffrage. The president regretfully told them, as he did the delegation in December that he could not urge anything upon congress which had not received the organic consideration of the democratic party. Today's demonstration affected the president deeply. As the delegation left the executive office, discouraged and disappointed because they obtained no positive aid, they did not know that the president himself was depressed, perhaps even more than themselves. He told friends afterwards that he wished he could help, but saw no way to do it. There is every reason to believe, however, that the day gave added stimulus to the president's desire for early legislation.

## GUILTY OF BRIBERY

NEW YORK, Feb. 2.—Joseph Cassidy, until recently democratic leader of Queens county and Louis T. Walter Jr., were found guilty by a jury in the supreme court of accepting a bribe in return for the judiciary nomination given Wm. Willette Jr., former member of congress in 1911. The jury was out 32 minutes.

## WIFE KILLS HUSBAND IN HER TERROR

Tragedy in Douglas the Outgrowth of Threats Made by Man, According to Statements by Wife and Others

Occurred Yesterday Afternoon in Front of Hotel; Young Woman Called to Street; In Fear, Took Gun

DOUGLAS, Feb. 2.—(Special)—Mrs. Winnie McEvers, 24, is held tonight on a charge of murder. The body of her husband, 24, is in the morgue. The tragedy occurred in front of the Avenue Hotel, G and 14th streets, where Mrs. McEvers was employed as a dining room girl. The time was shortly before 4 o'clock.

It was the culmination of threats which Mrs. McEvers says McEvers had made against her life. In this she is supported by the statements of others. Mrs. McEvers alleges McEvers had cruelly beaten her on a number of occasions and that he had also told her repeatedly that he would kill her. She says she was in mortal terror of him. This also is substantiated by others.

McEvers went to the hotel this afternoon and called to his wife to come out. She paid no attention to the first summons but on the second went to the sidewalk. Before she went out fearing that McEvers intended violence she put a revolver in the folds of her skirt. On the sidewalk she asserts that McEvers approached her muttering that he intended to kill her. She asked him to respect this threat, which he did and at the same time reached toward his pocket. She then fired from the folds of her skirt, McEvers falling with a mortal wound, which he survived but a few minutes.

When Coroner McClay arrived, he found McEvers lying on the sidewalk with one hand in his trouser's pocket, substantiating the young woman's previous statement, made to Officer Ed. Newman, to whom she surrendered in the hotel immediately following the tragedy. Her statement concerning the latter was voluntary and made before the arrival of the coroner. She fled from the scene of the shooting into the hotel as McEvers fell. Search of the latter's body, however, failed to reveal a weapon when the coroner arrived.

McEvers was in a fight on Saturday night with "Blackie" McEvey in front of a saloon. He was arrested but later released. Sunday morning he was rearrested on a charge of carrying deadly weapons. This morning he told the court that he had bought the gun with intention of killing himself. The county authorities after considering the matter decided not to push the prosecution, the man appearing repentant.

Soon after his release, McEvers was met on the street by W. G. Owen, city editor of the Dispatch, who asked him the outcome of his case. He replied that it was all over, adding, "but believe me I am likely to give you a real story before the day is over." Talking to the same newspaperman a little later in the day, G. L. Murphy, restaurant proprietor for whom McEvers had worked a while, said that he predicted that McEvers would either kill his wife or she become so frightened because of his threats that she would kill him.

Mr. and Mrs. McEvers came here from Fort Worth, Ark., about nine months ago. They were married in Fort Worth two years ago. McEvers had worked some at railroad work for short while he held jobs at the smelters. Later he worked for short periods in local restaurants. It was common among those who knew the couple that most of his work was in hunting jobs for his wife, who worked in several restaurants and hotels, where she bears good reputation. H. M. McEvers, father of the dead man, is a well known cook of the city and esteemed for his industry.

The charge of murder was preferred against Mrs. McEvers this evening by Assistant District Attorney J. P. Ross. Coroner McClay will hold inquest over the body of the dead man tomorrow morning.

## DIAMOND BROKER ROBBED

ST. JOSEPH, Feb. 2.—Joseph Schnicke, a diamond broker, was waylaid and robbed today of gems worth \$2,000 on a street in the west end of the city.
